APPENDIX A

"CLEAN" VERSION OF EACH CLAIM

37 C.F.R. § 1.121(b)(ii) AND (c)(i)

Please delete claims 1 through 5 without prejudice.

Please enter the following new claims.

6. (New) A golf swing training device comprising:

a golf ball;

a rigid line wherein a first end of said rigid line is secured to said golf ball and a second end of said rigid line is anchored to the ground at a predetermined distance in front of said golf ball;

a resilient line that is transverse to said rigid line and approximately bisected by said rigid line, said resilient line has both a first end and a second end anchored to the ground;

a ring that encloses said rigid line and said resilient line, wherein said ring is slidable along said rigid line and said ring is slidable along said resilient line; and

a plurality of marks located on said rigid line wherein a mark indicates a reference point for said resilient line to transverse said rigid line and said mark indicates a type of a golf club for a player to use when said resilient line crosses said rigid line at said mark.

7. (New) The golf swing training device of claim 6, wherein a length of said rigid line is approximately seven meters and a length of said resilient line is approximately five meters.

8. (New) The golf swing training device of claim 6, wherein said rigid line is secured to said golf ball by an expansion means or a holding ring that is coupled to a corrugated fastener member located at a core of said golf ball.

9. (New) The golf swing training device of claim 8, wherein said golf ball comprises a mounting hole with a greater diameter at an outer shell of said golf ball than at a center of said golf ball.

10. (New) The golf swing training device of claim 6, wherein said rigid line is secured to said golf ball by a vulcanization process.

A/

11. (New) The golf swing training device of claim 6, wherein said golf swing training device controls a return of said golf ball and prevents said golf ball from reaching said player.
